Concept, spatial narrative and technical drawing brought into one legible architectural process.

SELECTED EVIDENCE

Nexus Convergence | unbuilt civic proposal

Developed a leisure-to-learning third-place concept, public program, continuous spatial journey, plans, section and visualizations. Social impact remains a design hypothesis.

Phase 2 / technical studies | portfolio selection

Prepared selected construction-oriented drawings and wall/wet-area details. These are separate portfolio studies, not built Nexus documentation.

Urban design and analysis | academic work

Studied site and public-space structure in academic urban-design material; scope and project status are labeled in the source portfolio.

TOOLS / METHODS

AutoCAD, Revit, SketchUp, Rhino, Grasshopper and Photoshop; concept visualization and presentation.
